## Doctoral degree program «Doctor of Economics»

**Goal:** Training of civil servants with modern economic thinking, possessing "advanced" theoretical knowledge and scientific research, practical skills in the field of economics, capable of critical thinking and making effective decisions.

## The program objectives:

- to teach the skills of effective planning and organization of the work of a government agency based on the setting of specific tasks in accordance with strategic goals and priorities;
- to teach the skills of coordination and control of the implementation of strategic goals in a given time frame;
- to teach the ability to develop alternative solutions taking into account the available resources and potential risks;
- teach the skills of making effective decisions at a strategic level in order to achieve the set goals;
- to teach the skills of coordination and control of the provision of quality public services by a government agency;
- to teach the skills of analysis and implementation of innovative approaches to ensure the effectiveness of the state body activities.

## **Expected learning outcomes:**

**Synthesis:** Forms a long-term economic strategy for the development of the state (organization, region, sphere / industry)

**Analysis:** Explores the alternatives for the development of the organization, economy and justifies the optimal option

**Application:** Scientifically substantiates the choice of management decisions among alternatives

**Assessment:** Scientifically substantiates the risks and opportunities for the development of the organization, economy and offers alternative solutions

By competencies:

**Effective management.** Possesses the skills of effective planning and organization of the work of a state body on the basis of setting specific tasks in accordance with strategic goals and priorities. Collaboration. Knows how to build relationships with colleagues, other government agencies, organizations to achieve strategic goals.

**Leadership and strategic vision.** Has the skills to coordinate and control the implementation of strategic goals.

**Making decisions.** Taking into account the available resources and potential risks is able to develop alternative solutions; has the skills to make effective decisions at the strategic level to achieve the set goals.

**Customer orientation and informing.** Has the skills to coordinate and control the provision of quality public services by a government agency.

**Integrity.** Knows how to control compliance with ethical norms and standards, create an atmosphere of trust and respect in the team, ensure compliance with the principles of transparency and fairness in the actions of colleagues and subordinates.

**Initiative.** Possesses the skills of analysis and implementation of innovative approaches to ensuring the efficiency of the government agency.
